

This architectural drawing illustrates the structural frame of a building, featuring a grid of columns and beams. The drawing is oriented horizontally, with column lines numbered 17 through 25 at the bottom and beam levels labeled A and B on the left side.

Dimensions:

- Horizontal Dimensions (Column Spacing):** Indicated by arrows below the column lines, showing distances such as 2 400, 6 000, 12 000, and 3 600 between specific column centers.
- Vertical Dimensions (Beam Levels):** Indicated by arrows on the left side, showing heights from level A to level B, with values like 9 950, 1 225, 1 025, 850, and 450.
